

New Online Learning Tools

NWCPHP's new **Study Types in Epidemiology** module contrasts descriptive and analytic epidemiology and the types of studies used in each. [More...](#)

NWCPHP's popular **Introduction to Public Health Surveillance** module has been updated. [More...](#)

NWCPHP is preparing to release **Emergency Distribution of Pharmaceuticals**, designed to orient public health workers to the process of mass dispensing of medications and vaccines. [More...](#)

NWCPHP's **Measuring Risk in Epidemiology** module will be released in March! Check [our training Web page](#) to catch it when it goes live.

Web Page Has New Publications Section

We've added a Publications section to the NWCPHP Web site. Our goal is to give public health practitioners quick and easy access to public health literature. The section has links to databases like PubMed, public health journals, and a bibliography of publications by NWCPHP authors. If you know of a resource for public health literature that is not listed, please let us know so we can include it. [More...](#)
